

A Message to Our Customers

Dear Valued Customer,

As the situation surrounding COVID-19 continues to evolve, we want to reassure you that the safety of our customers and employees remains our number one priority. Our teams are observing social distancing rules and we have sanitising procedures in place across all of our operating sites, including branch and warehouse locations.

Fletcher Insulation is maintaining full business operations and we remain fully focused on doing our part to support the building and construction sector during this uncertain time.

As a local Australian manufacturer, our stock position remains strong and our team are continuing to work hard to ensure we meet your delivery and business requirements every day.

We're here to support you.

Please give us a call on 1300 654 444 or contact your local Fletcher Insulation sales representative.
